

Silo liners

*Storage for hot
or cold water*

*Albers Alligator can supply all your
silo liners and accessories.*

- Albers Alligator supplies a range of premium geomembranes for lining water tanks.
- Depending on the water, you can choose our multi-layer Polyextra®-S or even fabric-reinforced geomembranes.
- Installation takes place over the edge of the tank using stainless steel cables and ratchets.
- If desired, this can also include protection felt, conical sockets and anti-algae covers.
- Ask your dealer for advice on the right choice of materials.
